

ICIS-Air Data Dictionary

Source: EPA ECHO, ICIS-Air Download Summary, <https://echo.epa.gov/tools/data-downloads/icis-air-download-summary>

All files join on PGM_SYS_ID, the unique facility identifier. ACTIVITY_ID uniquely identifies a specific activity (inspection, action, violation) within a facility. Field names and types follow EPA's published data dictionary; field names have been verified against the actual downloaded CSV headers (one correction noted below).
